DANCEWEAR  
INTERNATIONAL

2021

**DANCEWEAR INTERNATIONAL LIMITED** is an exciting new venture, bringing for the first time to the UK, a selection of established and successful international dancewear brands.

Under a license agreement, this venture will be managed as a separate business by Legwear International Limited, bringing the same high standards of customer care and support that their customers have always enjoyed.

This, our first catalogue, initially introducing four new brands – from Europe, we have DANSEZ-VOUS, CALLA and ARTILIGNE and from Australia, MDM dance shoes.

On the next few pages is a synopsis and history of these brands.

To see a full range of all these brands and prices please go to **[www.dancewearinternational.co.uk](http://www.dancewearinternational.co.uk)**

For sales enquiries please contact Kara Connolly on **07495 734 208**  
or at **[Kara@dancewearinternational.co.uk](mailto:Kara@dancewearinternational.co.uk)**

Founded in 2007, a truly French brand, already established and selling in 25 countries – probably the fastest growing brand in Europe. Setting new standards of customer service and value, this brand has disrupted the comfort zones of the long established players in the market.

A no-nonsense family business located in Troyes, headed by the visionary entrepreneur, François Lepesqueux and ably assisted by his son Antoine.

Dansez-Vous have a comprehensive portfolio of core dance products, including leotards, shoes, tights, skirts and accessories.

Their cornerstone strength lies in their competitive positioning – well designed, high quality at affordable prices, backed up by a motivated hands-on team. This unbeatable combination of strengths is why this brand has done so well, and why it will continue to grow as a world brand.

With 30 years of experience, Baruch Hoffman is undoubtedly one of the most talented and experienced dancewear designers and manufacturers in the world. He was one of the founders of Dance Direct and the creator of the highly successful Plume brand.

Now manufacturing for a number of global brands, their attention to high quality materials, outstanding manufacturing ability, attention to detail, superior comfort and fit, have continually ensured their success.

From their extensive range, we have decided to stock in our Nottingham warehouse, a basic range of cotton fully front lined leotards, aimed at the basic uniform market.

You can only be impressed with the prices and their consequent unbeatable value.

Established in 2010, MDM is an Australian based dancewear company founded by former professional dancers and life partners, Timothy Heathcote and Simone Goldsmith.

When a serious back injury forced Tim into early retirement, he found himself drawn towards dance-wear design. Building on his extensive professional experience as a dancer Tim went on to study the architecture and manufacture of dance footwear with several of the major Internationally recognised companies.

Driven by his enduring passion for the dancers craft, inspired by a love of innovation, and now with a decade+ of experience in shoe design, Tim set out with the objective of bringing to the world market a new generation of exciting ballet shoes founded on the core philosophy that a dancers foot-wear is their most essential equipment that should PROTECT, CORRECT and SUPPORT.

Appreciating that 70% of all dance-related injuries occur in the lower leg, and that these injuries are made more likely when wearing unstructured or ill-fitting footwear, Tim dedicated himself to the mission of creating a range of shoes that are best understood as training aids and teaching tools that assist a dancers ever-developing technique and physiology.

As at 2020, Tim and Simone – herself a former Principal Artist with The Australian Ballet - have now refined a pioneering range of ballet, jazz and contemporary footwear founded upon their world patented, DANCE BASE SUPPORT. Their Dance Base Support provides biofeedback assisting the dancer to find the optimal alignment of their foot and ankle, controlled resistance to build early sensory awareness and shock absorption for impact protection; all while maintaining the highly valued cosmetic aesthetics required of any superior dance shoe.

The days and risks associated with ill-fitting and/or cheap, unstructured ballet shoes should be over.

MDM footwear represents a technological leap forward and whole new direction and mission for our dancewear industry. MDM is footwear designed with purpose; specifically developed to support the dancers craft, so that every dancer can dance longer and stronger.

Founded in 2010 this relatively new, dynamic and professionally run brand, after becoming a household name in the rhythmic gymnastics market, subsequently made rapid inroads into the European dance market.

Founded by Cecile Philipps, a rhythmic gymnastics trainer, together with a designer friend, Celine Lafaye, and a mother whose daughter, Danae, became a French Champion and in 2018 came 8th in the World Rhythmic World Championships. Their combined talents and intimate knowledge of the product requirements, together with exacting specifications, resulted in ARTILIGNE soon becoming a successful brand.

With all the fashion flair of their French heritage, having modern but classical designs, using mainly Italian fabrics and other European sourced materials ARTILIGNE has become renowned for their creativity, originality, quality, comfort and fit.

ARTILIGNE offers a range of leotards in 15 exciting colours, complimented with matching skirts.

*Groundbreaking  
technology for dancers.*

*This is MDM.*

"Our footwear designs combine a scientific approach with an intimate knowledge of the art of dance. This makes for truly superior products and a real difference to the dancers who rely on them. Please read on to learn about our amazing new technologies, including the patent protected Dance Base Support."

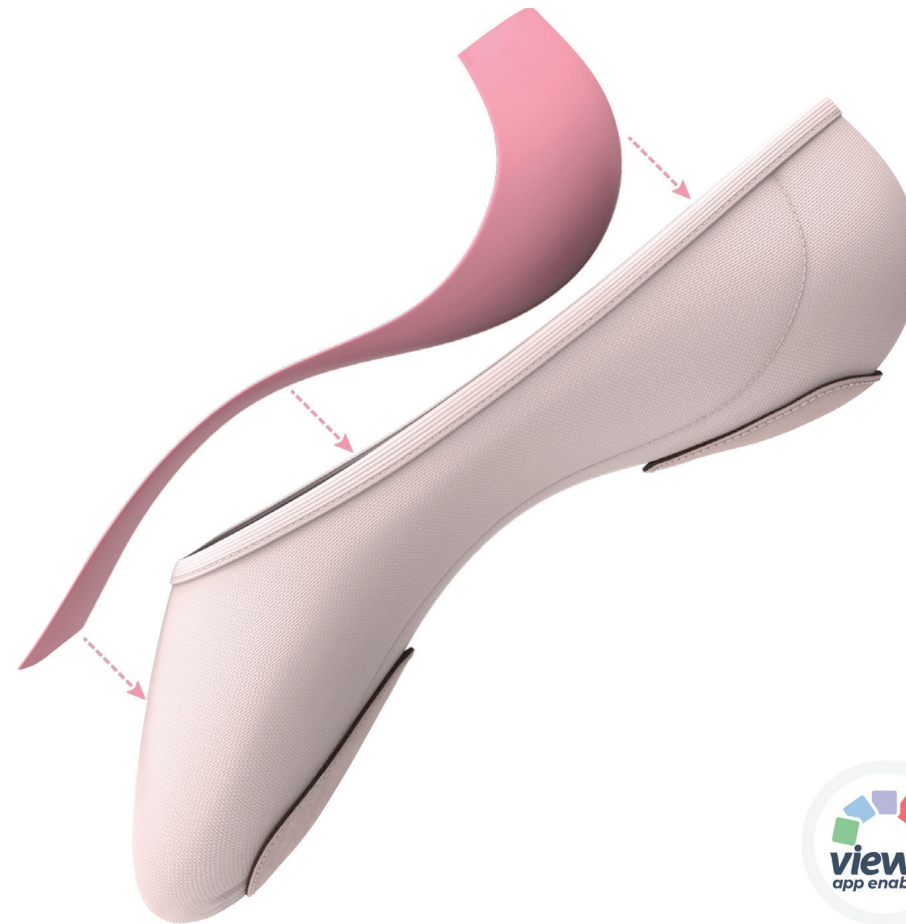

Simone Goldsmith, Co-founder MDM  
Principal Artist, Australian Ballet  
Gold Medallist, Adeline Genée Awards

mdm 

# Dance Base Support

protect | support | correct

## How?

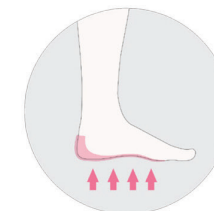

The Dance Base Support, constructed from a flexible EVA material, moulds to the arch of the foot to provide the equivalent resistance of a full sole. This is influential in developing the kinaesthetic awareness of the feet required for optimal dance technique.

The Dance Base Support helps activate the Intrinsic muscles of the feet, the development of these muscles is key to supporting a dancer's footwork development and the prevention of many common injuries.

Over pronation is a common dance technical fault. Through the process of proprioception, the Dance Base Support encourages alignment awareness and the opportunity to make small adjustments to facilitate optimal positioning.

The Dance Base Support developed exclusively by MDM is made of an EVA, similar to that found in sports shoes. This EVA provides shock absorption and therefore protection from the impact of landing forces.

# INTRINSIC

Canvas Hybrid Sole

DANCE BASE SUPPORT  
IMPACT PROTECTION

MB100

*Best for Beginner Levels*

*The built in Dance Base Support technology positions the canvas slipper as a viable option for young students in training.*

The Intrinsic is a hybrid sole canvas ballet slipper that has been specifically designed to supersede the full sole ballet slipper.

Since the creation of the canvas split sole slipper, teachers have advised against their use for young students. With the built in Dance Base Support, the Intrinsic protects and supports the wearer providing sensory feedback (proprioception), controlled resistance and critical shock absorption. It supports the foot and arch and allows the intrinsic muscles to recover when at rest.

### IDEAL FOR

- Maximum support
- Maximum muscle resistance training
- Long training and rehearsal sessions
- Accentuating the arch
- Alignment awareness i.e. 'sensing' pronation
- Preparation for demi pointe and pointe work

### FEATURES

- EUROPEAN Patent : 2549898
- Shock absorption cushioned heel
- Built on dance specific 3D scanned lasts
- Elastic binding for superior fit
- Flat pleats
- Pre-sewn cross elastics
- Heat reducing Kashmir lining
- Soft and durable high-grade canvas

### SIZES

MB100C (Child): 7 - 3 N, M

All sizes are listed in US sizes  
Available in half sizes

COLOUR    Pink

# INTRINSIC REFLEX

Canvas Hybrid Sole

DANCE BASE SUPPORT  
REFLEX CONTOUR  
IMPACT PROTECTION

MB105

*Best for Intermediate/Advanced Levels*

*The canvas alternative to the Elemental Reflex, the Intrinsic Reflex is the perfect companion for the emerging dancer.*

The Dance Base Support protects and supports the wearer providing sensory feedback (proprioception), controlled resistance and critical shock absorption while the Reflex Contour dynamically expands and contracts in sync with the dramatic changes of the dancers body, maintaining aesthetic lines at all times.

The strengthening and supportive features make this slipper an important tool to prepare for demi pointe and pointe work, while the Reflex Contour is ideal for growing bodies and various climates and conditions that can affect foot size.

### IDEAL FOR

- Growing bodies
- Climate adjustment. Heat and cold.
- Supporting a developing technique
- Long training and rehearsal sessions
- Accentuating the arch
- Alignment awareness i.e. 'sensing' pronation
- Preparation for demi pointe and pointe work

### FEATURES

- EUROPEAN Patent : 2549898
- Reflex Contour stretch panel expands as the foot grows
- Shock absorption cushioned heel
- Built on dance specific 3D scanned lasts
- Elastic binding for superior fit
- Flat pleats
- Pre-sewn cross elastics
- Heat reducing Kashmir lining
- Soft and durable high-grade canvas

### SIZES

MB105C (Child): 1 - 3 N, M

MB105A (Adult): 6 - 12 N, M

All sizes are listed in US sizes  
Available in half sizes

COLOUR    Pink

# INTRINSIC PROFILE 2.0

Stretch Canvas Hybrid Sole

DANCE BASE SUPPORT  
ENHANCED AESTHETICS

MB126

*Performance ready*

*The ultimate stretch ballet slipper. The Profile offers superior comfort and flawless aesthetics, perfect for exams and performances.*

The Intrinsic Profile 2.0 is the newest development in the stretch canvas series and comes with a re-engineered Dance base Support offering enhanced levels of comfort and support. The new Dance Base Support has been made wider at the forefoot, assisting with aesthetics when the foot is in a pointed position.

The suede outsole allows for flat pleats, giving the dancer a strong connection to floor and helping to reduce the torsion when turning; a common issue found with stretch canvas shoes.

### IDEAL FOR

- Growing bodies
- Climate adjustment. Heat and cold.
- Supporting a developing technique
- Exams and Performances
- Accentuating the arch
- Alignment awareness i.e. 'sensing' pronation

### FEATURES

- EUROPEAN Patent : 2549898
- Stretch canvas interlink fabric
- Shock absorption cushioned heel
- Built on dance specific 3D scanned lasts
- Elastic binding for superior fit
- Flat pleats

# CURVE

Stretch Canvas Jazz Shoe

DANCE BASE SUPPORT  
ENHANCED AESTHETICS

MJ330

*Performance ready*

*The Protract Curve Jazz Shoe is specifically designed for performances, exams and also as the most progressive Teacher's shoe on the market.*

Slipping on with an effortless sock-like fit, seamlessly incorporating the MDM Dance Base Support technology, the shoe provides every dancer all the support they need, the comfort they want while helping promote a stronger, less injury prone body.

For the technology to work at its maximum, the shoes have been designed to fit snug and the dancer will immediately feel the increased level of support for the arch. Due to the high impact nature of modern day movement and commercial jazz, the dancer can feel confident

### IDEAL FOR

- Growing bodies
- Climate adjustment. Heat and cold.
- Exams and Performances
- Teacher's shoe
- Accentuating the arch
- Alignment awareness i.e. 'sensing' pronation

### FEATURES

- EUROPEAN Patent : 2549898
- Built on dance specific 3D scanned lasts
- Shock absorption EVA heel
- Reduced arch wrinkles
- Full coverage EVA outsole

SIZES MJ330C (Child): 12 - 3 M  
MJ330A (Adult): 6 - 12 M

All sizes are listed in US sizes  
Available in one width whole sizes only

COLOUR Black Tan

# EXO LYRICAL

## Compression Foot Glove

IMPACT PROTECTION  
ENHANCED AESTHETICS

MM502

*Barefoot Appearance*

*The EXO Lyrical protects and supports the foot, while compression technology aids recovery and performance.*

The Exo Lyrical encourages blood flow from the foot to the heart, which in turn improves oxygenation and gives the dancer more energy in the feet and legs.  
Muscle recovery is facilitated by reducing the accumulation of toxins in the blood stream, and the gentle massaging properties will reduce the feeling of tired and achy legs.

Lyrical dance is an opportunity to express human emotion through movement. A chance to tell a story and take the audience on a journey. Complete freedom during this process is key to a convincing performance, the Exo Lyrical provides the freedom to perform at your best.

SIZES XS/S/M/L  
COLOUR Flesh

NOTY

*This neoprene foot thong protects the dancer's feet when rotating on the floor.*
